Why it works in a grocery shop

1

You do not have to buy a truckload

Start with a small order, see how it turns in your shop and grow from there. The risk of trying it is deliberately low.

2

It lives on the counter

We provide the display. It occupies the spot where the impulse decision happens, not a shelf at the back.

3

Every piece sells itself

Individual packaging, recognisably premium product and a price that leaves real margin per piece, not cents.

4

It keeps without refrigeration

The shelf life is long and needs no cold, so it does not compete for your fridge or run a clock on you.

NEXT STEP

How we start your order

01

Tell us your area

We confirm how the product reaches you and which display suits you best.

02

Trial order

Start small, with a display, and measure how it turns on your counter.

03

Restock

We confirm the price per piece and freight, and match the frequency to your real rotation.

An impulse product that does not make you bet your inventory.
